

DonorsChoose

DonorsChoose.org receives hundreds of thousands of project proposals each year for classroom projects in need of funding. Right now, a large number of volunteers is needed to manually screen each submission before it's approved to be posted on the DonorsChoose.org website.

Next year, DonorsChoose.org expects to receive close to 500,000 project proposals. As a result, there are three main problems they need to solve:

- How to scale current manual processes and resources to screen 500,000 projects so that they can be posted as quickly and as efficiently as possible
- How to increase the consistency of project vetting across different volunteers to improve the experience for teachers
- How to focus volunteer time on the applications that need the most assistance

The goal of the competition is to predict whether or not a DonorsChoose.org project proposal submitted by a teacher will be approved, using the text of project descriptions as well as additional metadata about the project, teacher, and school. DonorsChoose.org can then use this information to identify projects most likely to need further review before approval.

About the DonorsChoose Data Set

The train.csv data set provided by DonorsChoose contains the following features:

Feature	Description
project_id	A unique identifier for the proposed project. Example
project_title	Title of the project. Examples: <ul style="list-style-type: none"> • Art Will Make You Happy! • First Grade Fun
project_grade_category	Grade level of students for which the project is targeted. Enumerated values: <ul style="list-style-type: none"> • Grades PreK-2 • Grades 3-5 • Grades 6-8 • Grades 9-12
project_subject_categories	One or more (comma-separated) subject categories from the following enumerated list of values: <ul style="list-style-type: none"> • Applied Learning • Care & Hunger • Health & Sports • History & Civics • Literacy & Language • Math & Science • Music & The Arts • Special Needs • Warmth Examples: <ul style="list-style-type: none"> • Music & The Arts • Literacy & Language, Math & Science
school_state	State where school is located (<u>Two-letter U.S. postal code</u> (https://en.wikipedia.org/wiki/List_of_U.S._state_abbreviations)). Example: WY
project_subject_subcategories	One or more (comma-separated) subject subcategories. Examples: <ul style="list-style-type: none"> • Literacy • Literature & Writing, Social Sciences
project_resource_summary	An explanation of the resources needed for the project. <ul style="list-style-type: none"> • My students need hands on literacy materials to meet sensory needs!

Feature	Description
project_essay_1	First application essay*
project_essay_2	Second application essay*
project_essay_3	Third application essay*
project_essay_4	Fourth application essay*
project_submitted_datetime	Datetime when project application was submitted. Example: 12:43:56.245
teacher_id	A unique identifier for the teacher of the proposed project. Example: bdf8baa8fedef6bfeec7ae4ff1c15c56
teacher_prefix	Teacher's title. One of the following enumerated values: <ul style="list-style-type: none"> • nan • Dr. • Mr. • Mrs. • Ms. • Teacher.
teacher_number_of_previously_posted_projects	Number of project applications previously submitted by the teacher. Example: 2

* See the section **Notes on the Essay Data** for more details about these features.

Additionally, the `resources.csv` data set provides more data about the resources required for each project. Each line in this file represents a resource required by a project:

Feature	Description
id	A project_id value from the <code>train.csv</code> file. Example: p036502
description	Description of the resource. Example: Tenor Saxophone Reeds, Box of 25
quantity	Quantity of the resource required. Example: 3
price	Price of the resource required. Example: 9.95

Note: Many projects require multiple resources. The `id` value corresponds to a `project_id` in `train.csv`, so you use it as a key to retrieve all resources needed for a project:

The data set contains the following label (the value you will attempt to predict):

Label	Description
project_is_approved	A binary flag indicating whether DonorsChoose approved the project. A value of 0 indicates the project was not approved, and a value of 1 indicates the project was approved.

Notes on the Essay Data

Prior to May 17, 2016, the prompts for the essays were as follows:

- __project_essay_1:__ "Introduce us to your classroom"
- __project_essay_2:__ "Tell us more about your students"
- __project_essay_3:__ "Describe how your students will use the materials you're requesting"
- __project_essay_3:__ "Close by sharing why your project will make a difference"

Starting on May 17, 2016, the number of essays was reduced from 4 to 2, and the prompts for the first 2 essays were changed to the following:

- __project_essay_1:__ "Describe your students: What makes your students special? Specific details about their background, your neighborhood, and your school are all helpful."
- __project_essay_2:__ "About your project: How will these materials make a difference in your students' learning and improve their school lives?"

For all projects with project_submitted_datetime of 2016-05-17 and later, the values of project_essay_3 and project_essay_4 will be NaN.

My kindergarten students have varied disabilities ranging from speech and language delays, cognitive delays, gross/fine motor delays, to autism. They are eager beavers and always strive to work their hardest working past their limitations. \r\n\r\nThe materials we have are the ones I seek out for my students. I teach in a Title I school where most of the students receive free or reduced price lunch. Despite their disabilities and limitations, my students love coming to school and come eager to learn and explore. Have you ever felt like you had ants in your pants and you needed to groove and move as you were in a meeting? This is how my kids feel all the time. They want to be able to move as they learn or so they say. Wobble chairs are the answer and I love them because they develop their core, which enhances gross motor and in turn fine motor skills. \r\nThey also want to learn through games, my kids do not want to sit and do worksheets. They want to learn to count by jumping and playing. Physical engagement is the key to our success. The number toss and color and shape mats can make that happen. My students will forget they are doing work and just have the fun a 6 year old deserves.nannan

'My district is responsible for creating an individualized learning community within my campus. We piloted this unique program last school year. The WIN Academy was created to help us succeed. I proud to say my classroom and I have been part of this program since we began. \\r\\nMy class consists of 100% Tier 3, at-risk scholars, who depend on differentiated instruction 100% of the time at levels. We became a family and continue to work as one. We will continue to make our district part by showing that we will WIN. Our WINners, at our campus are considered 100% at-risk and range from being 1-2 grade levels behind. My third graders are one in four classrooms with this demographic. Technological tools, like these wireless headphones, help a lot in helping our scholars improve. My scholars are also English Language Learners (ELLs). When this station is used with grade level books. my scholars are learning the English language, understanding it, and making sure they are prepared for certain skills. My scholars will benefit from these headphones because they will be having fun listening fun and engaging stories, yet learning at the same time. Their reading levels will increase with this station.nannan'
